Autism House School Outreach Service Presents:

A 1-day strategy and solution-focused workshop relevant for people on both sides of the education partnership – school (or pre-school) and home.

In the essentially practical style of Autism House workshops, this course is hands on with many real life easy-to-implement strategies for the classroom and home environments.

Topics Covered:

Successful Classrooms:

What are they? and How do you make one?

IEP's: New thinking for old problems

How to REALLY achieve goals for any age student

Who will find this workshop helpful?

Anyone wishing to contribute to successful education outcomes for children with ASD.

About Autism House

At Autism House our focus is on hands-on, practical services and solutions that make a difference. All our services and supports are developed based on direct feedback from you - our members.

Based in Auckland, Autism House works with families and professionals throughout New Zealand.

About SOS

Autism House's School Outreach Service was developed to assist school staff and families find practical solutions when issues arose. Initially a crisis service for school-age children, it was then expanded to provide training and support at any stage for any educational setting – Early childhood through to Secondary School. SOS and SOS 4 ECE is a service that is available Nationwide for all who require support.
